

Establishing Corporate Safety Strategy and Corporate Safety Governance Framework (Course Code: SC 17-005)

18 February 2017 (Saturday), 9:30am to 12:30pm

Introduction

When business keeps growing and is extended to different cities, different countries and different continents, how to ensure the operations around the world are all safe becomes a vital question to the managers and senior executives. The course talks about how to establish a corporate safety strategy, and how to implement a corporate safety governance framework to ensure all business units of a corporation follow the established strategy and requirements to achieve the safety goals.

Programme Objectives

To arouse participants' awareness on the importance of implementing a corporate safety governance framework in a company with multi-national business hubs and to enhance their skills and techniques in establishing and implementing that framework in a company.

Learning Outcomes

Upon completion of this course, the participants are able to

- Understand the fundamentals of corporate safety strategy and corporate safety governance, and the different approaches to establishing them
- Understand the key steps in establishing and implementing an effective corporate safety strategy and safety governance framework in a company with multi-national businesses

Who Should Attend

Senior executives, managers and consultants in transportation, public utility, or other high risk industries.

Speakers

Dr Vincent Ho
PhD, MBA, PE, CSP,
CEng, RSO, FHKIE,
CFIOSH, FIMechE, FCILT

Dr. Vincent Ho is a career risk management and safety professional with over thirty years of experience in conducting quantitative risk assessments, fire risk analyses, system safety and assurance, enterprise risk management, risk-based decision analyses, as well as security analyses, for the transportation industry, nuclear power plants, CBRN weapons, and various complex engineering systems. He is currently the Head of Corporate Safety of MTR Corporation Limited, a rail transportation company with a workforce of over 33,000 globally, serving over 10 million passengers daily. He received his BS, MS, PhD, and MBA from the University of California, Los Angeles. He is a VP of IOSH since 2015; he had served in the IOSH Council between 2009 and 2015, and he was the Chair of the IOSH, Hong Kong Branch, in 2007-2008.

Gary Chu
B.Eng.(Hons.), M.Sc.,
CEng, MIMechE

Gary Chu is a safety professional specialised in railway system assurance, risk management, safety management, safety culture, behavioural-based safety, corporate safety governance, crisis management, and business continuity planning. He has more than 18 years of proven experience in application of safety management in both railway project and operations environments. The railway projects he participated in include the West Rail Line, Ma On Shan Line, East Rail Extensions, Kowloon Southern Link, and Taiwan High Speed Rail. Currently, Gary is the Corporate Safety Standards Manager of MTR Corporation Limited, providing support to the Corporate Safety Management Committee to perform safety governance over all businesses of the Corporation globally. Gary is also responsible for establishing and implementing a corporate crisis management system to ensure business resilience.
